

CABLE GLANDS ACCESSORIES DATA SHEET
CABLE GLANDS ACCESSORIES

Installation:

hazardous areas - Zone 1 / 2 (Gases) - Zone 21 / 22 (Dusts)

classification:

Group II - Category 2G 2D

Mechanical features:

earth tag (ET)

Material: stainless steel, for stainless steel cable glands;
nickel plated brass, for nickel plated brass cable glands.

gasket (NW)

Material: nylon 6.

locknuts (DL)

Material: nickel plated brass.

shroud (PTD)

Material: nickel plated brass.

serrated washer

Material: stainless steel, for stainless steel cable glands;
nickel plated brass, for nickel plated brass cable glands.

Applications:

earth tags (ET)

are used to grant earth continuity of cable glands.

gaskets (NW)

are used to grant the IP rating between the cable glands and the enclosure.

locknuts (DL)

are used to fix the cable glands when the enclosures holes are not threaded.

shrouds (PTD)

are used to protect the glands.
